

# Introduction to PanelView Plus

Introduction to PanelView Plus is designed for those students who have basic PLC knowledge and would like to learn how to setup basic configurations of the PanelView Plus.

This course provides the student with the basic skills necessary to operate, maintain and load applications from the PanelView Plus human machine interface.

We use custom training equipment made to be just like the equipment on the floor. One work station for 2 students. Maximum of 10 students per class.

## Course Topics

### Load Applications

- Load applications for internal storage
- Load applications from Compact Flash
- Load applications from usb drive
- Run loaded applications

### Application Settings

- Device shortcuts
- Startup Language

### Terminal Settings

- Alarms
- Diagnostics Setup
- Display
  - Display intensity
  - Display temperature
  - Screen saver
  - Cursor
- File management
  - Copy files
    - Copy applications
    - Copy fonts
  - Delete files
    - Delete applications
    - Delete fonts
    - Delete logs
- Font Linking
- Input devices
  - Keyboard
  - Mouse
  - Touchscreen
  - String popup
- File Integrity check

## Course Topics

### Terminal Settings(cont)

- Networks and communication
  - Network connections
    - Device name
    - Network adapters
      - Set ip address
      - Ethernet configuration
    - Network identification
  - RsLinx Enterprise communications
- Print setup
  - Alarm print setup
  - Diagnostics print setup
  - Display print setup
- Startup options
  - FactoryTalk View ME startup
  - Startup tests
- System event log
- System information
  - About FactoryTalk View ME station
  - Terminal information
- Time/date/regional setup

## Course Objectives

- Students should be able to manually configure a PanelView Plus from the touchscreen.

Course includes flash drive with a large amount of valuable PanelView information along with enough storage for student lab projects completed in class.

## Introduction to PanelView Plus

### Who Should Attend:

- IT Technicians
- Electricians
- Multi-craft personnel
- Plant & facility maintenance technicians
- Plant & facility managers
- Stationary engineers
- Anyone who works with plcs

### Onsite Training:

- We offer onsite training at your facility.
- We can provide the same courses as we offer in public seminars. We can even design courses especially to meet your needs.

### Advantages of On-Site Training:

- Modify the content to your specific needs
- Protect company privacy
- Workers remain on site in case of an emergency
- Saves time and travel costs
- Instructors can discuss your specific equipment
- Problems can be openly discussed
- Flexible scheduling
- Increased price savings as the groups get larger
- Promote teamwork & camaraderie among workers
- More comfortable learning environment

### Class Options:

#### 2 Day Class

- PanelView Plus for Maintenance Technicians

#### 4 Day Class

- PanelView Plus Workshop
